Measure and Compare Objects with Rulers

Use the ruler to measure the objects in centimetres (cm) and compare their lengths.

1. Measure the objects.

Use the ruler to find the length of each object. Write your answer in centimetres (cm).

a) Pencil

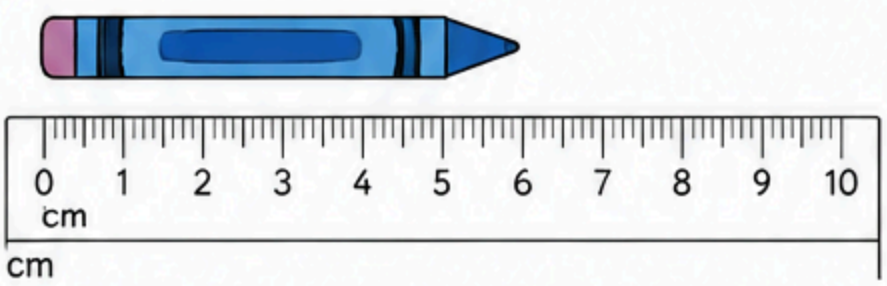

Length: _____ cm

b) Paper clip

Length: _____ cm

c) Crayon

Length: _____ cm

d) Ruler (small)

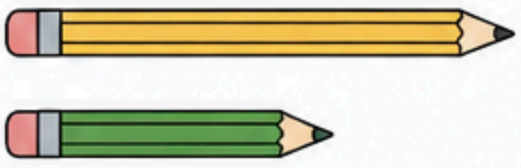

Length: _____ cm

2. Compare the lengths.

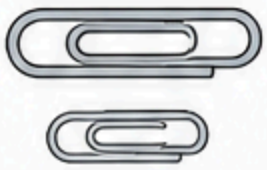

Look at the objects and use *longer*, *shorter* or *equal* to complete each sentence.

a)

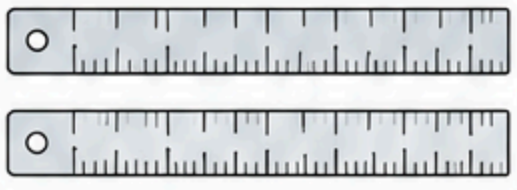

The yellow pencil is _____ than the green pencil.

b)

The top paper clip is _____ than the bottom paper clip.

c)

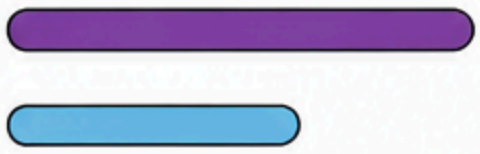

The rulers are _____ in length.

3. Use the ruler to compare the objects.

Measure the objects if you need to. Then write *longer*, *shorter* or *equal*.

a)

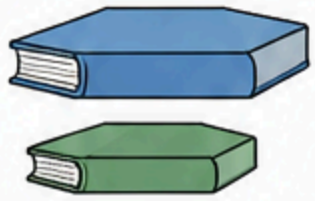

The purple stick is _____ than the blue stick.

b)

The top spoon is _____ than the bottom spoon.

c)

The blue book is _____ than the green book.
