Picture Division Groups

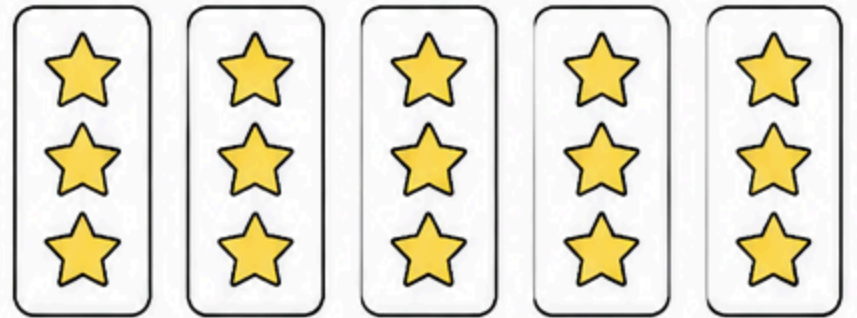

Count the objects in each picture, divide them into equal groups, and write the division number sentence that matches the illustration.

1. There are 12 apples. Divide them into 3 equal groups.

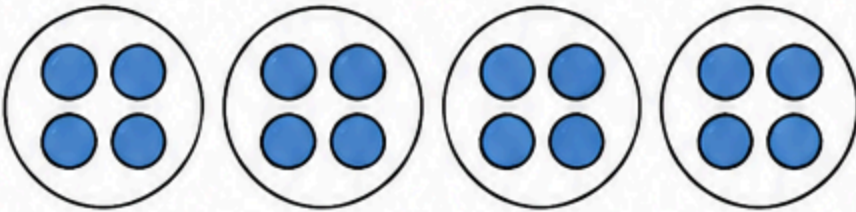

$$\square \div \square = \square$$

2. There are 15 stickers. Divide them into 5 equal groups.

$$\square \div \square = \square$$

3. There are 16 counters. Divide them into 4 equal groups.

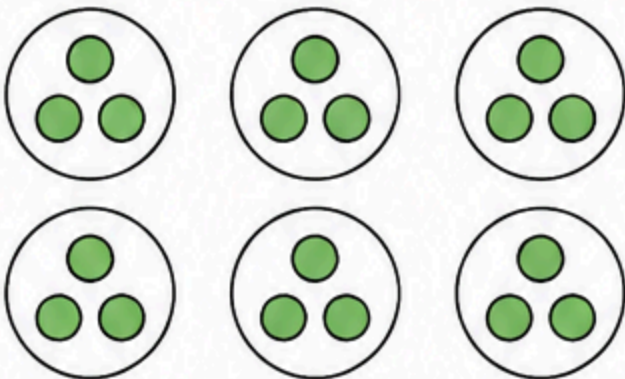

$$\square \div \square = \square$$

4. There are 20 cupcakes. Divide them into 5 equal groups.

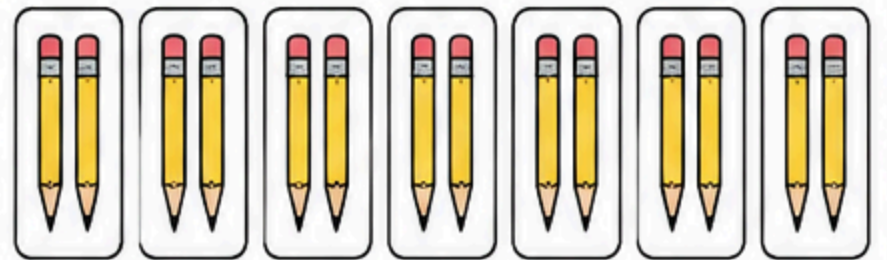

$$\square \div \square = \square$$

5. There are 18 counters. Divide them into 6 equal groups.

$$\square \div \square = \square$$

6. There are 14 pencils. Divide them into 7 equal groups.

$$\square \div \square = \square$$
