Shade Tenths on Grid Squares

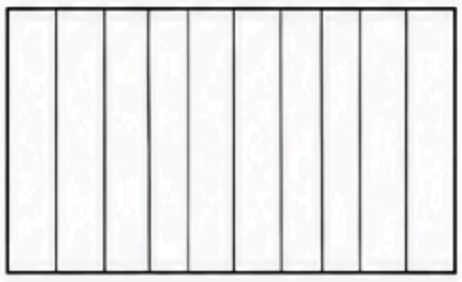

Shade the grid to show the decimal amount. Each grid is divided into 10 equal parts (tenths).

Example:
Shade 0.3

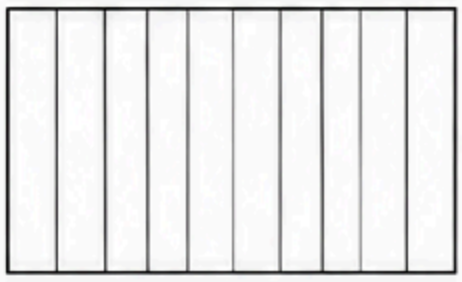

0.3 means 3 tenths,
so shade 3 out of 10 parts.

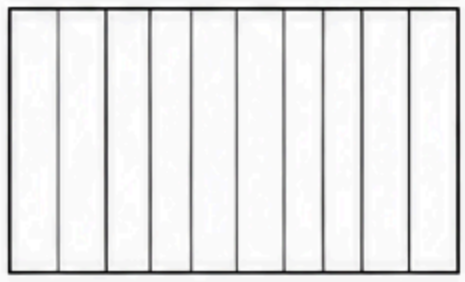

1. Shade 0.1

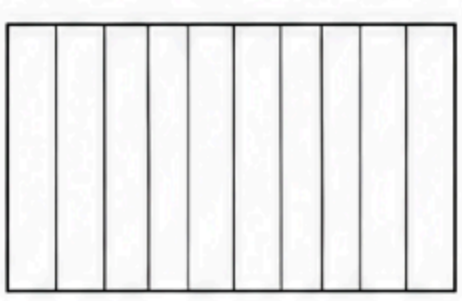

2. Shade 0.4

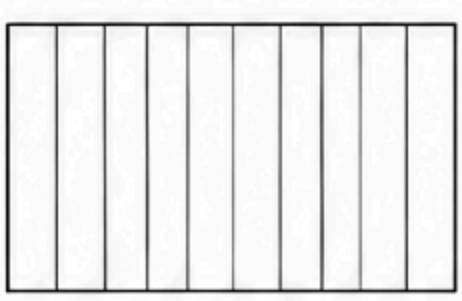

3. Shade 0.7

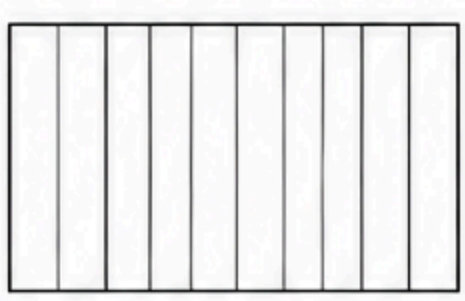

4. Shade 0.2

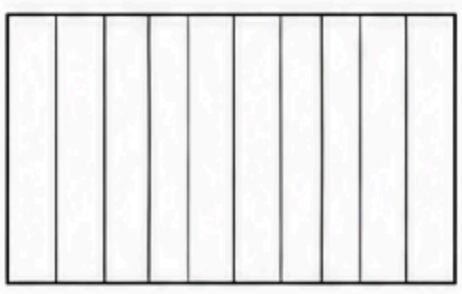

5. Shade 0.6

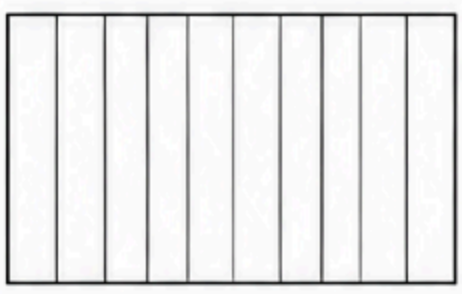

6. Shade 0.9

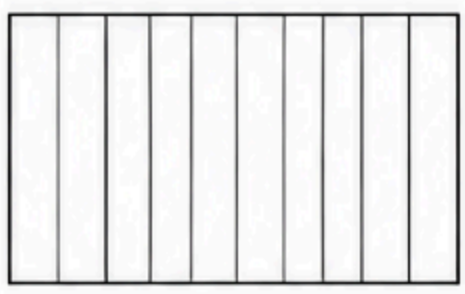

7. Shade 0.5

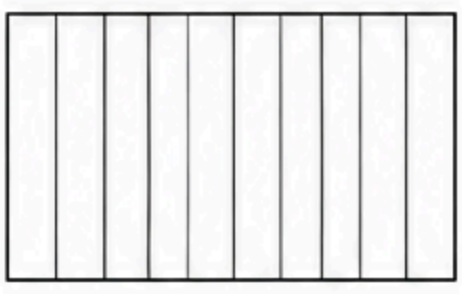

8. Shade 0.8

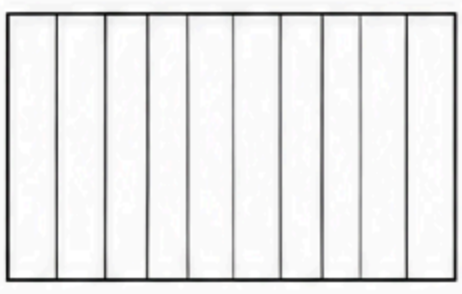

9. Shade 0.3

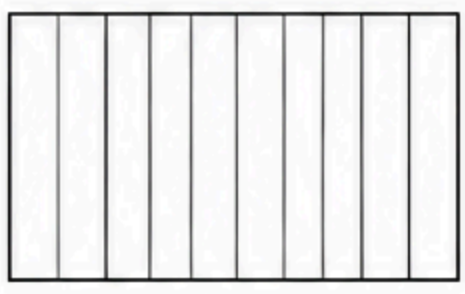

10. Shade 0.4

11. Shade 0.6

12. Shade 0.1

Remember:
1 whole = 10 tenths

Each part of the grid
is worth 0.1 (one tenth).
