Division with Area Models

Use rectangular area models to show how to divide the following numbers.
Draw the model, fill in the missing values and write the quotient.

1. 864 ÷ 6

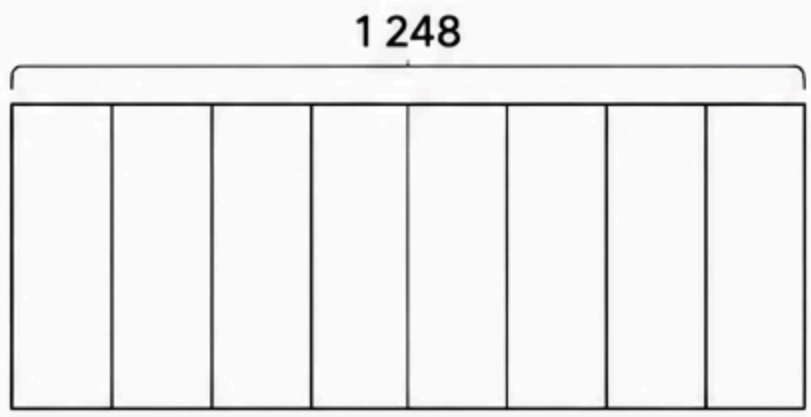

Draw a rectangular area model to show the division.

Quotient: _____

2. 1 248 ÷ 8

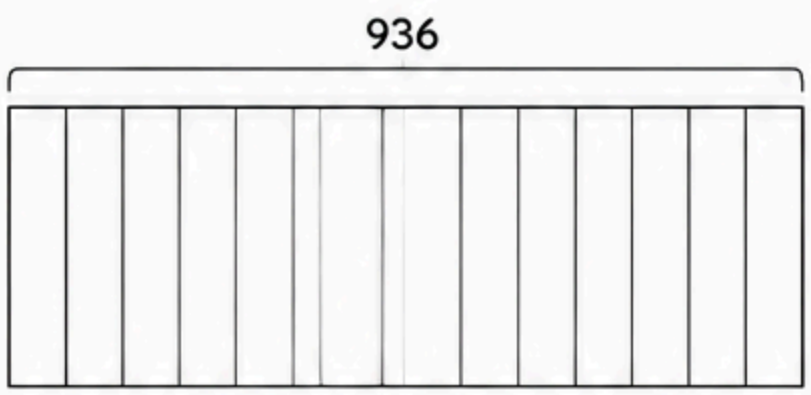

Draw a rectangular area model to show the division.

Quotient: _____

3. 936 ÷ 12

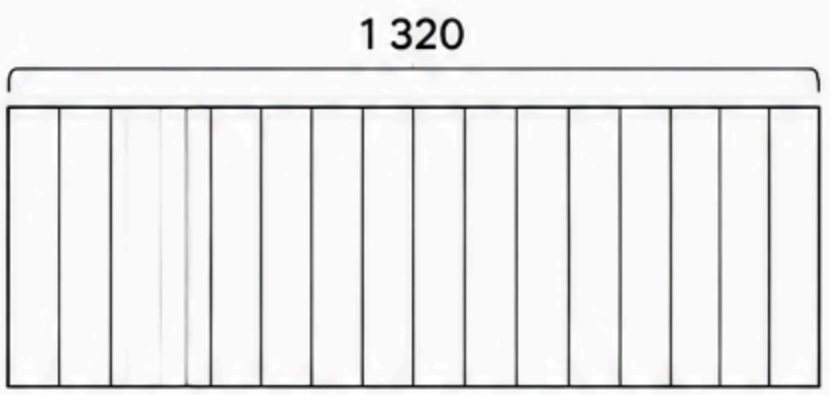

Draw a rectangular area model to show the division.

Quotient: _____

4. 1 320 ÷ 15

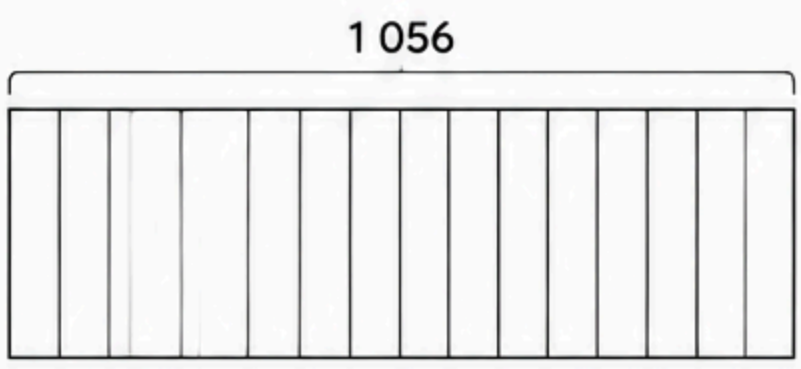

Draw a rectangular area model to show the division.

Quotient: _____

5. 1 056 ÷ 14

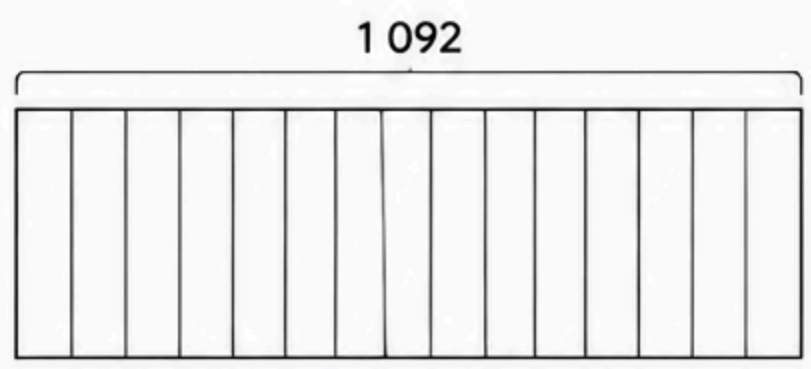

Draw a rectangular area model to show the division.

Quotient: _____

6. 1 092 ÷ 13

Draw a rectangular area model to show the division.

Quotient: _____
