

# Equal Groups Division

Name: \_\_\_\_\_

Date: \_\_\_\_\_

**Instructions:** Look at each set of objects. Draw circles around the objects to show equal groups. Then write the division equation.

1. Divide 6 stars into 2 equal groups.

$6 \div 2 = \underline{\quad}$

2. Divide 8 hearts into 4 equal groups.

$8 \div 4 = \underline{\quad}$

3. Divide 10 circles into 5 equal groups.

$10 \div 5 = \underline{\quad}$

4. Divide 12 apples into 3 equal groups.

$12 \div 3 = \underline{\quad}$

5. Divide 15 squares into 5 equal groups.

$15 \div 5 = \underline{\quad}$

6. Divide 20 dots into 4 equal groups.

$20 \div 4 = \underline{\quad}$
